Parkinson Disease: Neuroprotective and Neuro-restorative Therapy

David G. Standaert, M.D., Ph.D.
John and Juanelle Strain Professor of Neurology,
Director of the Center for Neurodegeneration and Experimental
Therapeutics
University of Alabama at Birmingham

OBJECTIVES:

At the conclusion of the program, participants will be able to:

1. Describe the evidence for a neuroprotective or neuro-restorative effect of existing Parkinson disease therapy
2. Discuss mechanisms of potential neuroprotective treatments
3. Discuss how potential neuroprotective treatments can be studied in clinical trials

The Virginia Commonwealth University (VCU) School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Physicians may claim up to 1 hour in Type 1 or Type 2 CME on the Virginia Board of Medicine Continued Competency and Assessment Form required for renewal of an active medical license.

VCU designates this educational activity for a maximum of 1 AMA PRA Category 1 Credits TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Virginia Commonwealth University is an equal opportunity/affirmative action institution providing access to education and employment without regard to age, race, color, national origin, gender, religion, sexual orientation, veteran's status, political affiliation or disability. If special accommodations are needed, please contact [Andrea Perseghin at 828-9940](mailto:Andrea.Perseghin@vcu.edu).
